

SERAG ELDEIN SAYED

Software Engineering Student

📍 Cairo, Egypt · ✉ seragsayed22@gmail.com · ☎ +20 1050100978 · [🌐 LinkedIn](#) · [🐙 GitHub](#)

PROFILE

Senior Software Engineering student with experience in full-stack software development, seeking opportunities to apply programming skills and contribute to innovative projects.

EDUCATION

Misr International University (MIU)

Bachelor of Science in Computer Science – Software Engineering Major

09/2022 – 07/2026

Cairo, Egypt

EXPERIENCE

Admission Team (MIU)

Assistant Team Leader

June 2024 – Present

Cairo, Egypt

- Assisted prospective students throughout the admission process, organized and managed university events including orientation days and open houses, and collaborated with faculty and staff to ensure successful execution and positive visitor engagement.

IT Intern

Enppi Company

August 2025

Cairo, Egypt

- Gained practical experience with technical support, system troubleshooting, and daily IT operations in a real workspace environment.

PROJECTS

COVADEV | *Python, Django, React, TypeScript, NLP*

[GitHub Repository](#)

- Graduation project: AI-driven system validating semantic alignment between BPMN process models and source code using fine-tuned transformer embeddings, with Precision, Recall, and F1-score metrics and a React dashboard.

Pawtopia | *Flutter, Firebase*

[GitHub Repository](#)

- Cross-platform pet adoption and rescue app with real-time data, role-based access, CRUD workflows, real-time chat, push notifications, and AI-assisted missing pet matching.

Resource and Time Management Platform | *Spring Boot*

[GitHub Repository](#)

- Backend task and workload management platform featuring a dynamic Workload Balancer, time tracking, and integrated time logging for accurate project estimation and billing.

Mkanak Real Estate | *PHP, MySQL*

[GitHub Repository](#)

- Dynamic web platform for property buying, renting, and listing with type/price filters, secure contact form, and SQL-based backend for managing user listings and queries.

NEO Clothing Brand | *HTML, CSS, JavaScript, Node.js, MongoDB*

[GitHub Repository](#)

- Full-stack e-commerce platform for a clothing brand with secure user authentication, product listing by category, shopping cart, and payment processing.

TECHNICAL SKILLS

Languages: Java, JavaScript, PHP, Python, C++, HTML, CSS, Dart
Frameworks & Platforms: Spring Boot, Flutter, Django, React.js
Databases: MySQL, SQL Server, MongoDB
Tools: Git, GitHub, Supabase, Google Firebase

COURSES

Full Stack PHP

Summer 2025

AMIT Learning

- Full-stack web development using Laravel (RESTful APIs, Eloquent ORM, authentication) and React (dynamic UIs, API integration), with MySQL and Git/GitHub for version control.
